	4. Quality in GE. What is GE trying to achieve? And how do we measure it?	Learn about different perspectives on quality. Are there standards? How are they being implemented? How do we know it's working? How do we want it work? Measure attitudes towards social change.	
	5. Campaigning and outreach.	Advocacy issues, how do we make our point, how do we advocate for change. Groups could produce slogans or discuss how campaigns could be more effective. Code of conduct – not all countries are familiar with it. Campaigns build support from pressure groups (schools, teachers, young people). Advocacy is focused on decision makers.

Workshops:

Two options:

1. On the 1st Day, 5 parallel working groups will take place in order to build arguments for Global Education. We are asking you to choose to attend one workshop for Day1 (cf. application form). On the 2nd day, before returning in the same working group (30min session), you’ll have the possibility for 60 minutes to visit other groups (in order to have an idea of other topics).
2. On the 1st Day, 5 parallel working groups will take place in order to build arguments for Global Education. We are asking you to choose to attend one workshop on the 1st Day (cf. application form) and a different one on the 2nd day.

Personal stories:

We would like to screen short personal stories’ videos. The idea is to show that GE has influence on people’s life. It would be great if practitioners or everybody else involved in GE could share their view on GE or their personal experiences.

Personal stories videos:

- 1 minute video “Tell as much as you want in one minute”,
- Approximately 10 videos (at least one from each partner country),
- Ideally one video for each speaker/facilitator,
- Foreign speakers could tape it by themselves (wherever they want).

Personal stories scheduled on the 2nd Day will be recorded during the 1st Day.

Don’t worry, we will take care of editing the videos. We are just encouraging you to help us making this conference more interactive by recording yourself/your colleagues... Such videos can easily be made thanks to a compact camera or the camera from your laptop/phone.

Partner fair/networking:

We believe this part is important, because it will give us the opportunity to deepen contacts. We still have time before the conference to structure it in order to make it as useful and interesting as possible.
